Toi Mai is committed to ensuring our standards are current and meet the needs of your industry.

We have identified some unit standards that have had little or no usage in the last few years, and in some cases even longer. To ensure our standards add value **we intend to expire the unit standards listed below**. The last date for assessment for these standards is proposed as 31 December 2024.

### Subfield: Equine

*Note: These standards were reviewed in 2021 but were missed off the final review report. NZRDA have given their support for the expiration of these standards as they no longer form part of their qualifications.*
